EXPERIENCE

Software Engineer Intern - Synchro [São Paulo - SP] 10/2022 - 11/2024

Synchro is one of the leading Brazilian companies in tax and compliance solutions, serving major economic groups nationwide. Worked on the development of internal applications using React.js for the front-end and Spring Boot for the back-end, focusing on building intuitive interfaces and optimizing corporate tax processes. Participated in the design of RESTful APIs, integration with relational databases, and implementation of reusable UI components. Contributed to improving user experience and application performance while collaborating with design and QA teams in an agile environment.

Undergraduate Researcher - UFPB 09/2021 - 10/2022

Worked as a researcher in the field of networks and security at the Laboratory of Computer Networks (LAR). As a result of this research, a paper titled "*Experimental Demonstration of Vulnerabilities in Internet of Things Devices*" was published and awarded Best Short Paper at the XVI Workshop of Undergraduate Research (WTICG), held at the XXII Brazilian Symposium on Information and Computer Systems Security (SBSeg 2022).

EDUCATION

B.S. in Data Science and Artificial Intelligence - Federal University of Paraíba - 8.89/10 05/2019 - 11/2025

TOOLS AND INTERESTS

Tools C, C++, Python, Java, JavaScript, PyTorch, TensorFlow, Git, Linux.

Interests Software Engineering, Machine Learning, Mobile Development.

EXTRACURRICULAR ACTIVITIES

Active Member of TAIL - UFPB 08/2022 - Present

TAIL (Technology and Artificial Intelligence League) is a non-profit organization guided by professors from the ARIA Lab. Its mission is to train new students, produce content, contribute to the field of AI and Data Analysis, and help members achieve their goals (internships, graduate programs, full-time jobs). Currently, it has 65 active members across Brazil and has introduced hundreds of people from multidisciplinary fields to programming and AI.

Tutor – Introduction to Programming - UFPB 03/2021 - 07/2021

Worked as a tutor in the Introduction to Programming course, supporting first-year Data Science students by answering questions and providing guidance on assignments and projects.

PUBLISHED PAPERS

Demonstração Experimental de Vulnerabilidades em Dispositivos Internet das Coisas SBC 2022

RELEVANT CERTIFICATES

Google AI Essentials - (Coursera) 12/2024
