EXPERIENCE

Software Engineer Intern - Synchro [São Paulo - SP]

10/2022 - 11/2024

Developed and maintained internal applications using **Spring Boot** and **React.js**, focusing on system integration and optimization of corporate tax processes. Designed and implemented **REST APIs**, integrated with relational databases, and built reusable front-end components. Worked in an Agile environment, collaborating with cross-functional teams (product, design, and QA) on requirements gathering, business rule validation, and application performance improvements.

Undergraduate Researcher - Networking Laboratory (LAR/UFPB)

09/2021 - 10/2022

Conducted security analysis and testing on BLE devices using the Sneytnooth framework and nRF52840 Dongle hardware in a Linux environment. Performed crash, deadlock, and security bypass attacks on IoT devices, analyzing BLE protocol vulnerabilities. Developed Python automation scripts to manipulate packets and assess security risks. Contributed to identifying flaws that could compromise the privacy and integrity of connected devices.

EDUCATION

Bachelor's Degree in Data Science and Artificial Intelligence

Universidade Federal da Paraíba (UFPB) - GPA: 8.89/10.0

05/2019 - 11/2025

TOOLS

Languages Java, Python, JavaScript, C/C++, SQL

Frameworks Spring Boot, React.js, React Native

Tools Git, Linux, Docker, Gradle

EXTRACURRICULAR ACTIVITIES

Active Member - TAIL (UFPB)

08/2022 - Present

Participated in multidisciplinary technology and AI projects, focusing on developing applied solutions.

Teaching Assistant - Introduction to Programming - UFPB

03/2021 - 07/2021

Assisted first-semester students in programming logic, problem-solving, and provided support for coursework and projects.

PUBLICATION

NASCIMENTO, Raphael L. C.; LEAL, Ryan M. S.; FONSECA, Iguatemi E.

Experimental Demonstration of Vulnerabilities in Internet of Things Devices.

XXII Brazilian Symposium on Information Security and Computer Systems (SBSeg), 2022.

CERTIFICATIONS

Google AI Essentials - Coursera

12/2024

HONORS AND AWARDS

Best Short Paper - Undergraduate Research and Graduation Workshop - SBSeg 2022

09/2022
